

## IDAHO HIGH SCHOOL STUDENTS COMPETE TO QUALIFY FOR FIRST® INTERNATIONAL ROBOTICS CHAMPIONSHIP

This is a Free family friendly event open to the public. Come anytime 9a-5p on March 29th &/or 30th 2019 to the *Ford Idaho Center*, 16200 Idaho Center Blvd, Nampa, ID 83687.

Go to our website for more details ([www.IdahoFRCregional.org](http://www.IdahoFRCregional.org)).

During the FIRST® Idaho Regional Robotics Competition, high-school students from 4 states, Mexico and 15 Idaho schools will have the opportunity to showcase their hard work after an intense six weeks of designing and building an original robot.

### ABOUT THEIR CHALLENGE :

**DESTINATION: DEEP SPACE** Presented By Boeing, the 2019 FIRST Robotics Competition game, finds teams collecting samples on Planet Primus. Two competing alliances will combat unpredictable terrain and weather patterns, making remote robot operation essential to their mission on the planet. With only two minutes and thirty seconds until liftoff, the alliances must gather as many cargo pods as possible and prepare their spaceships for departure before the next sandstorm arrives.
